IMPORTANT DISCLOSURE: You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Plan. The Fund estimates that it may distribute more than its income and net realized capital gains for the current fiscal year; therefore, a portion of your distribution in 2011 may be a return of capital. A return of capital may occur for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with 'yield' or 'income.' The amounts and sources of distributions reported in this Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for accounting and/or tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year in February of 2011 that will tell you how to report these distributions for federal income tax purposes.

NOTE: This correspondence is for informational purposes only and should not be relied upon to project the tax character of actual Fund distributions for the 2011 calendar year.
