<sup>3</sup> Madison Asset Management, LLC ("Madison"), the investment adviser of the fund, and MFD Distributor, LLC ("MFD"), the fund's principal distributor, contractually agreed until at least February 27, 2020 to waive fees and reimburse fund expenses to the extent necessary to prevent a negative fund yield. The fee waiver agreement may be terminated by the Board of Trustees of the fund at any time and for any reason; however, the Board has no intention of terminating this agreement in the next year. Not included in the fee waiver are any fees and expenses relating to portfolio holdings (e.g., brokerage commissions, interest on loans, etc.) or extraordinary and non-recurring fees and expenses. Neither Madison nor MFD has the right to recoup any waived fees.

**Example:**

The following example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes you invest \$10,000 in the fund for the time periods indicated and then either redeem or not redeem your shares at the end of the period. The example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	Redemption		No Redemption	
	A	B	A	B
<b>1 Year</b>	\$ 55	\$ 578	\$ 55	\$ 128
<b>3 Years</b>	176	758	176	408
<b>5 Years</b>	307	909	307	709
<b>10 Years</b>	689	1,357	689	1,357

## Principal Investment Strategies

The fund invests at least 99.5% of its total assets in cash, government securities, and/or repurchase agreements that are collateralized by cash or government securities, including but not limited to the Federal National Mortgage Association, Federal Home Loan Banks, Federal Home Loan Mortgage Corporate, and Federal Farm Credit Banks. Under normal circumstances, the fund will invest at least 80% of its net assets in government securities and/or repurchase agreements that are collateralized by government securities.

The fund is a money market fund that seeks to maintain a stable net asset value ("NAV") of \$1.00 per share.

The fund's investments must have a remaining maturity of no more than 397 days and must be high quality. The fund maintains a dollar-weighted average portfolio maturity of 60 days or less.

## Principal Risks

As with any money market fund, the yield paid by the fund will vary with changes in interest rates. Generally, if interest rates rise, the market value of income bearing securities will decline.

An investment in the fund is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the fund attempts to maintain a stable price of \$1.00 per share, there is no assurance that it will be able to do so and it is possible to lose money by investing in the fund.
